

## Voltas, the formidable leader in Cooling Products, launches its latest state-of-the-art range of Inverter ACs for the summer of 2023

- Launches the 2023 range of Voltas Inverter ACs with Convertible Cooling, Multi Adjustable Mode, HEPA Filter, Super UVC
- The new range of ACs come with advanced features like Super Silent operation, Ice Wash technology and Filter Cleaning Indicator for better performance
- Introduces new SKUs across its range of Air Conditioners, Air Coolers, Commercial Refrigeration, and Voltas Beko Home Appliances
- Also unveils its 2023 range of Refrigerators with the one & only, Neo Frost Dual Cooling technology.

### Key Features of Voltas Inverter AC powered with HEPA Filter and PM1.0 Sensor to deliver pure and cool air.

- **HEPA Filter:** The new AC range, comes with HEPA Filter along with PM1.0 sensor and AQI Indicator to deliver pure air.
- **Super UVC:** This range is powered with Super UVC technology and TiO2 coated air filtration system
- **Multi Adjustable Mode:** Intelligent switching within multiple tonnages, basis ambient heat and number of people in the room

### Marquee features

- **Super Silent Operation:** Ultra quiet performance for noiseless sleep.
- **Ice Wash:** Quick freezing and de-freezing of the condenser coil results in complete cleaning of the coil which enhances the cooling performance.
- **Filter Clean Indicator:** Indicates and informs the user to clean the Air Filter for better performance.
- **Anti-Corrosive Coating:** Gives the condenser coil added life and helps in cooling better and longer.

**Mumbai, 05 April, 2023:** Voltas, India's leader in Cooling Products, and the No. 1 AC brand, from the house of Tata's, has strengthened its leadership position further in the Cooling Products space. The latest offering is the Voltas' 2023 Inverter AC range which comes with the unique value proposition of 'Pure & Flexible Air Conditioning'. It is powered with HEPA Filter, PM 1.0 Sensor and AQI Indicator which help to purify the indoor air and is also loaded with convertible cooling within its 6 Stage Adjustable Mode, that allows the user to switch within multiple tonnages, depending on the ambient heat or number of people in the room. It gives you safe and pure air along with savings and optimization of running cost. Moreover, the new range is loaded with new features like Super Silent operation for comfortable sleep, Ice Wash and Filter Cleaning Indicator for better performance and Anti Corrosive Coating to give enhanced performance, comfort and convenience.

Our market insights confirm that there is a consumer trend of upgrading their home appliances, for which they rely on technology. The last survey indicated that Indian customers' preferences in the home appliance category are evolving, with comfort, convenience, cooling, health and hygiene becoming the top priority. According to the research, 4 out of 5 Indians want their air conditioners to be upgraded with air purification technology, which cleans the indoor air swiftly by destroying pollutants and germs. This reaffirms the consumer trend of upgrading home appliances while they continue to multi-task from home and rely on technology to live comfortably.

Commenting on the launch of the new summer range of Air Conditioners,

**Mr. Pradeep Bakshi, Managing Director & CEO, Voltas Limited** said, *“In line with the market demand for health & hygiene products, coupled with comfort & convenience, Voltas has introduced its latest Inverter AC range which comes with a unique value proposition of ‘Pure & Flexible Air Conditioning’. With convertible cooling technology which comes within its 6 Stage Adjustable Mode, that allows the user to switch between multiple tonnage options, the new range is loaded with many new features for additional comfort and convenience. With the industry poised for innovation this season, we at Voltas are well-prepared to meet the expectations of customers with our new range.”*
